

## WHO OWNED THE BABY

Sexton Porter's Story Told Before a Coroner's Jury.

## SURROUNDED BY MYSTERY

Parents of the Child Whose Remains Were Left for Burial at the Cemetery Not Yet Known.

BUTTE, June 16.—And still it is not known who owned the baby whose body was left at the cemetery Friday evening with the request that it be buried without anybody being informed of the fact.

As announced in the STANDARD this morning, Judge Muldoon began an inquest yesterday evening, at which Dr. Tremblay testified to the cause of death of the infant. In order to secure more testimony the inquest was adjourned until today, and J. C. Porter, sexton of Mount Moriah cemetery, was subpoenaed as a witness. When Porter reported the case to the authorities he said the body of the child had been left with him by a man named Treblecock, who resided at Centerville. When sworn today Porter told a different tale, and disclaimed all knowledge of the person who left the body with him, saying he did not know who the man was.

Porter's testimony before the jury was to the effect that last Friday evening a man had appeared at the cemetery with a box which he asked to have buried, but first asked Porter if he was the superintendent of the cemetery. Porter asked him what the box contained and was told the body of a still-born child. Who the man was Porter swears he was unable to say, having never seen him before nor since then. After being told about the body Porter testified that he told the stranger it would be necessary for him to secure a burial permit before the child could be buried. To this, he claimed, the stranger had replied that he could bury the body himself and thus evade the requirements exacted by the superintendent and health officer. Porter said he could not bury a body in Mount Moriah cemetery without a permit, but to accommodate the stranger he consented to place the body in the receiving vault and keep it over night until the man who brought the box could see William Schmidt, the undertaker, and obtain all information relative to obtaining a permit for burial of the body. Porter said he next asked the stranger whose child it was and was told it belonged to Treblecock, who resided at Centerville. The box was placed in the vault and the stranger left, saying he would return to town and get a permit from Mr. Schmidt. Porter said that the man had arrived at the cemetery in a single rig, but as he was color-blind he could not tell whether the man drove a white or a black horse. The man appeared to be about 40 or 45 years old. In the opinion of Porter the box containing the body was made specially for that purpose. As to where the stranger went after leaving the cemetery, Porter knew absolutely nothing. Porter claimed to be unable to find Treblecock, but thought he lived at Centerville. Being asked if he had not told Judge Muldoon that he would endeavor to find Treblecock, Porter said he had, and did so in order not to be arrested.

Contradictory of the testimony of Porter was that given by Samuel F. Salvesson, who was present yesterday at the interview between Judge Muldoon and Porter, when the former visited the cemetery to make inquiries relative to the case. Salvesson testified that Porter had said that he knew the man who had brought the body to the cemetery for a number of years; that Porter had also said he would go and find the man and have him call at the witnesses' office at 10 o'clock this morning. After Judge Muldoon had gone, the witness continued, Porter had said he guessed he would not go to Centerville that evening, because he thought the man who had brought the box might be working on the night shift, but would go the next morning. Porter had claimed to know the man well that left the box. The witness could not remember the number of years Porter claimed to have known the man, but from Porter's conversation he inferred that he knew him well and for a long time. Porter said Treblecock was the man he was going to see and have him explain why he had left the body and then left to retestify that he was at the cemetery when the man with the box arrived, and acting under Porter's orders, he opened the vault to receive the box. The man had arrived in a sulky and had handed the box to Porter, and the latter placed it in the vault. Witness did not know the man's name. As near as the witness could judge, the man was about 30 years old and was sure that he could identify him to be the man who brought the box about 10 or 11 o'clock of June 12 when the man arrived at the cemetery and after he had gone Porter told witness that he knew the party to whom the child belonged. Porter claimed to know the parents of the child, but did not know the man in the sulky.

William Schmidt testified that Porter had called on him and told him that somebody had brought the body of a child to the cemetery with the request that it be buried, but could not obtain a permit.

On the strength of Porter's first statement a warrant was issued Saturday evening for the arrest of James Treblecock. Constable Shepherd made search for Centerville, but was unable to find a man by that name. Today he learned that a miner named James Treblecock lived at Walkerville, and after a little difficulty found him and placed him under arrest. Treblecock was sworn and testified that he knew absolutely nothing about the case under consideration, but did know Porter and had known him for about two years. The prisoner said he was working in the Clipper mine and was on day shift on June 12, working until 3 o'clock in the afternoon.

As this statement was found out to be true, Treblecock was discharged and another search begun for the other man.

The jury concluded that it would be advisable to secure more testimony, and ordered the arrest of Porter on the belief that he was holding back information necessary to get at the real facts in the case, and then adjourned until 7 o'clock to-morrow evening. Porter will be taken into custody, probably tonight, to assure his presence when wanted.

**Mineral Locations.**  
BUTTE, June 16.—The following notices of location were recorded in the county recorder's office to-day:  
The Meramec lode, in the Summit Valley mining district, by John Linoska, William Gagan, John Hines and Mike McNulty.  
The Hatty quartz lode, in the Flint creek unorganized mining district, by Timothy Mahoney and Jerry McCarthy.

**Books at Auction.**  
And private sale all day, 4,000 volumes of standard and miscellaneous work, art works, fine albums and juveniles. Auction at 7:30 p. m. at St. Nicholas hall, Broadway. Twenty-five copies Hill's Manual.

Madame Wilcox, Dressmaking by the day, 144 West Park street, room 28.

## A COLLECTOR'S TRIALS.

Chinamen Who Do Not Want to Pay Poll Tax.

BUTTE, June 16.—Johnnie Simpson has been appointed special collector of poll taxes by City Treasurer Jacobs. During the latter part of last week, Johnnie, who himself is a sort of maverick or something of that kind among the Chinamen, at least he is so regarded by the banished denizens of Chinatown and gave notice that on the following Monday he would begin collection of the annual tribute. Yesterday he started in and was only fairly successful. Some of the Celestials paid, but a great many said "no savvy," while others claimed to be exempt on account of age and still others said they had paid their tax. This did not suit the collector and he marched two of the gentlemen to the police station on a charge of refusing to pay poll tax. They entered pleas of not guilty and gave bonds to appear to-day. This afternoon they were on hand, accompanied by Attorney Hamilton. Ah Sam was the first one placed on trial and the collector was the only witness examined. He could not swear positively that he had given the defendants the required three days' notice exacted under the law, and the defense moved for a dismissal on that ground. The motion was granted and Johnnie waited at the door for the Chinamen to appear. When the latter went down stairs he was in possession of the knowledge that in three days he would be expected to pony up.

The other defendant was Wing Wah, and a demurrer was entered to the complaint against him. Arguments on the demurrer will be heard to-morrow.

**SULLIVAN'S INJURED EYE.**  
W. P. Roberts' Cause Causes Trouble for Two Men.

BUTTE, June 16.—This evening W. P. Roberts was tried in Judge Muldoon's court for jolting Pat Sullivan in the eye with a cane Saturday evening. Roberts was employed at the wrestling tournament held at Centerville as doorkeeper and watchman. While making the rounds of the amphitheater he pushed his cane through a hole in the fence. Unfortunately for Sullivan his eye happened to be in close proximity to the hole and further progress of the cane was arrested. At the trial Roberts testified that a number of holes had been cut in the fence by economical persons who took that way of witnessing the exhibition without paying. The particular hole mentioned in the complaint was one of them, and as he was passing it he saw a knife blade protrude which was being used to enlarge the hole. He jabbed at the knife with his cane so as to notify the owner of the knife to cease his cutting. In a few minutes afterward he was told that he had struck a man in the eye with his stick. He then looked over the fence and saw Sullivan with blood running from his eye. He apologized to Sullivan and told him he was sorry that the thing occurred because he did not intend to injure him.

Sullivan testified that he was not cutting the hole and had not a knife; that Roberts deliberately poked him in the eye and then looked across the fence. Sullivan further testified that when he saw Roberts looking at him, he told him if he ever caught him on the outside he would crack his head with a club. Decision was reserved until to-morrow.

**WHO MUST PAY?**

Damages Done by the Recent Heavy Rain.

BUTTE, June 16.—It is a question whether the city will have to pay for the injury recently done to its conduits, or whether it can make somebody else pay for the damage. Alderman Hinds of the sewer committee thinks the Montana Union Railroad company should be made to pay the last damage done to the Dublin gulch culvert, as that was undoubtedly caused by blowing the dam open with giant powder. This is said to have been done by the orders of Montana Union officials. It was washed out over 50 feet of culvert and it may be that the railroad will be called on to pay the damage.

It is estimated that the entire damage to the city by the recent storm will not fall short of \$5,000. Of this, more than \$3,000 is in Dublin gulch. The Missoula gulch culvert at Park street was considered the best in the city, but the lesson of the past ten days seems to have demonstrated conclusively that the contract system of city work is not the best system for the city, and that a better job for the city is likely to be done by the day's labor system. It is found that exceedingly small boulders were used in the construction of the Dublin gulch culvert between Granite and Broadway, which was ruined by the flood. Four hundred feet of track of the Butte City Street Railway company, on the line to Columbia gardens, was washed out by the storm, but the damage was repaired to-day and the track will be in running order to-morrow.

**A ROTTEN EGG ACCOMPANIMENT.**

Threats Against the Boston & Montana Band.

BUTTE, June 16.—Mr. Treloar, leader of the Boston & Montana band, said this evening that threats had been made that in case the band would undertake to head the procession of the P. O. S. of A. to-morrow it would be rotten egged. Not much stock is taken in the threats by the members of the band, but as a precautionary matter arrangements have been made to frustrate any attempts at assault on the band by any kind. Mr. Treloar says that the war waged against his band by the Musicians' union is unreasonable and the fact that the threats of assaulting the band have been made shows the weakness and injustice of the position taken by the union.

**RAILROAD MATTERS.**

Trains on the Montana Central Delayed—Personal.

BUTTE, June 16.—For two or three days past trains on the Montana Central have arrived from one to five hours late. The delays have occurred at some point east of Great Falls, but the reason is not known. This afternoon the Northern Pacific through train from the east was five hours late, whether the delay was caused by an accident could not be learned at this end.

H. O. Wilson, agent of the Union Pacific at Helena, arrived in the city this evening.

P. Clark, agent of the Northern Pacific at Missoula, is in the city hunting up old friends. Mr. Clark was formerly stationed in Butte as city freight agent.

**Freight Rates.**  
The Union Pacific is prepared not only to make the same freight rates from Duluth and West Superior to Montana common points, as are made by Northern lines, but on freight traffic reaching Milwaukee or Chicago from the East, via Duluth and West Superior to Montana common points, will make same rates as can be made via Duluth and West Superior. This route, via Milwaukee or Chicago, being much quicker.

E. V. MAZE, General Agent.

Buy your groceries at McLean's cash store, 142 West Park street.

Leave orders for piano tuning at Sherman's for W. A. Smith.

## INCREASE THE FORCE

More Policemen Needed to Look After the People's Welfare.

## MORE STREET LAMPS WANTED

Dangers of Not Having All Parts of the City Properly Lighted—Small Burglaries Committed.

BUTTE, June 16.—Since Saturday there have been five burglaries or attempts at burglaries in this city. Nothing very valuable has been taken in any of these attempts, but the burglars have got away with a few dollars in money and clothing to the value of \$200, besides other articles worth a few dollars. Heretofore year after year when anything had been stolen in this city, the police could usually recover by simply making a round up of the pawnshops. The thieves were simply steak thieves, and after thieving pawned the articles stolen for a few dollars. But the gang now infesting the city works on a different plan. None of the articles stolen the past few days can be found in the pawnshops or second hand clothing stores. It looks very much as though there is somewhere a secret hiding place where the gang of burglars carry their goods and leave them. Today Detective Rhodes made a trip through the flats but could find no place of concealment down there.

The city council will meet to-morrow night, and a good many citizens are hoping that steps will be taken toward the increase of the police force. The present policemen are good men, but recent events would indicate pretty plainly that there are not enough of them. So long as there is a possibility of men being murdered in cold blood within a block and a half of the city hall, it would seem to be the duty of the city authorities to afford citizens protection even if a policeman must be placed on every street corner in the city limits. Two policemen, no matter how efficient, cannot protect the entire southwestern part of the city. Every man who walks home after dark to the southwestern part of the city or across the gulch, takes his life in his hands, for there are undoubtedly plenty of men lurking around who would think nothing of sandbagging, or even killing a citizen if a few dollars could be gained. It is a matter of fact that the hacks have been doing a thriving business since Tuesday night, carrying belated citizens to their homes who formerly thought nothing of walking home.

Alderman Barrett remarked to-day that 1,000 policemen would scarcely be enough to keep the city entirely safe. This might be, and yet the city would be safer than it is, and some men's lives or valuables might be saved thereby. It is six days since the night when Penrose was murdered; yet at 2 o'clock this morning the electric lights on the west side had gone out, and the corner of Montana and Helena streets was as dark as it was on the night of the fearful crime. It would be proper for the electric light companies to explain whether they run in the interests of the citizens or the burglars and assassins, and whether there is any possibility of lighting up Butte's dark corners.

**MR. McSHERRY'S ANSWER.**

He Says He Pays Good Wages and Reserves the Right to Hire Whom He Pleases.

In yesterday's issue there appeared a communication signed by Frank Beebe and headed "Want McSherry's Scalp." Now while I am not seeking any notoriety through the newspaper, I feel it a duty, in justice to myself, to contradict the same, wholly and for all time. In regard to Mr. Beebe's charge as to the Kansas City case, I will say that I never worked there, was in that city, and never received a cent from any union there or elsewhere, and what he says is entirely false. This Mr. Williams of whom he speaks, I will say that he never worked on the Dublin gulch works unless under some other name, and I never told him that if he quit the union he could or could not work for me all summer, or any other length of time as I am not in the habit of making any such proposition to any one. Now in regard to union and non-union labor, I wish to be understood, and as I have before said, I have no objection to union men, and I have not discriminated for or against either side. I don't ask a man who is seeking employment whether he is or is not a union man, for I claim to reserve the right to hire any one I want, and that no one has a right to dictate to me when I employ when I pay such men for their services. I am willing to pay any man, union or non-union, \$6 per day of nine hours, and have always done so in Butte and claim the right to discharge them when their services do not suit me, irrespective of unions, and always do so. I am a fair day's work for fair day's pay, and I must use my own judgment as to whether a man is worth \$6 a day or not. Now about this Dublin gulch work, of which there is so much talk, I will say that the working decepted, Mr. Williams, came to me and collected \$5 each from six of the masons working, and I accepted their orders, so the union could get the money. A few days later this decepted called off all union men from the gulch, and the masons who paid \$5 quit and some did not, but, however, work went on just the same when the weather permitted. C. J. McSHERRY.

**Loings in Department 1.**

BUTTE, June 16.—In Department 1 of the district court to-day an order was given to publish a notice to creditors in the case of the estate of Thomas Coleman, deceased.

Chastine Humphrey was commanded to appear before the court on the 19th, to show reason why letters of guardianship should not be given to C. J. Shawill in the case of Ollie Humphrey and Dora Shawill, minors.

The case of James Steele et al. vs. The Northern Pacific and Montana Railway company, was postponed until the 22d inst.

The jury rendered a verdict in favor of the plaintiffs in the case of J. S. Rosebaum vs. Mrs. J. Pineus. This involved a claim for liquor to the amount of \$151.59. Notice of a new trial was given by the defendant's counsel.

The plaintiff got judgment for \$635 and costs in the suit of A. Delmoor vs. The Montana Central Railway company.

Further hearing of the case of Charles O'Donnell vs. Eugene D. Sullivan was continued until to-morrow morning at 10 o'clock.

An adjournment was also taken in the case of Joseph Lally vs. Nelson Bennett et al. until June 25.

**Railway Telegraphers.**

St. Louis, June 16.—At the meeting of the Railway Telegraphers this morning the first business was the reading of the annual reports of grand officers. The report of the grand chief telegrapher shows there has been great activity among the organizers, the membership being increased very materially. The secretary's report showed a membership of 10,000, while the treasury is in excellent condition.

**An Old Resident Ill.**

BUTTE, June 16.—Patrick Burns is very low to-night at his home in Centerville. He is ill with bronchial troubles. Mr. Burns is one of the oldest residents of Butte.

**Piano Tuning.**

Leave orders for piano tuning at Sherman's for W. A. Smith.

## IN POLICE COURT.

Business Only Fairly Good—The Judge's Easy Day.

BUTTE, June 16.—Business was only fairly good in the police court to-day and Judge McMurphy found time to finish the cigar he lighted yesterday.

Tom Kilala was arraigned for vagrancy and pleaded not guilty, claiming to be a workman. The court is always willing to give a workman a chance and set Mr. Kilala's trial for 2 o'clock to-morrow afternoon.

Bob McLaughlin was dismissed, the charge of drunkenness which was entered against him being shown to represent only a very slight offense.

Mrs. Jordan, who once or twice before was in court for fighting with her husband, was tried for disturbing the peace. As she had been in jail since Saturday night, and it being shown that she was really not so much to blame in the last instance, she was discharged.

For disturbing the peace, Bob Fry was fined \$5 and costs. He was committed.

John Johnson was found guilty of vagrancy and will work out \$10 and costs.

Kelly, another "vag," and a tough one, was fined a like amount and will help to improve East Broadway.

A clear case of disturbance was made out against Hugh Blake, but Hugh pleaded so hard to be allowed to leave the city, saying he had a job at Iron Rod, that he was permitted to go.

John Davis was found guilty of being an idle person without visible means of support. On his promise that he would look for work sentence was suspended 24 hours.

**THE MINERS' DANCE.**

A Great Gathering of the City's Young People Last Night.

BUTTE, June 16.—The free dance given by the Miners' union to-night was in point of numbers, too successful, if such a thing was possible. Their space in the hall was so crowded that it was almost impossible for the dancers to go through the different changes. It is said that there were upwards of 150 couples on the floor. The managing committee was composed of E. E. Kelly, M. McKevitt, J. Fogarty, H. Stebbins, P. Breen, L. H. McGuire, J. H. Hall, James McEneaney and W. E. Dooley, the latter named gentleman being floor manager. C. H. Palmer was prompter, and if he is not too hoarse to speak to-morrow it won't be because he didn't string his lungs sufficient to-night.

The hostess and Montana string band furnished the music, under the directorship of W. H. Eddy. The lovers of the "light fantastic" will always have occasion pleasantly to recall the free dance given by the Miners' union. The dance lasted until 5 o'clock.

**TWO BAD-ACTING PROWLERS.**

Officer Anderson Practices Shooting Early in the Morning.

BUTTE, June 17.—This morning shortly before 2 o'clock Officer Anderson observed two men at the corner of Park and Montana street acting in a suspicious manner. Finally they went south on Montana, and in a few minutes afterward the officer took a short cut by going between some buildings and went as far south as Mercury street, where he saw the same men prowling in the rear of a house near the corner of Silver. They disappeared for a moment, and when next he saw them they were scaling the fence, when they observed him and started on a run down Dakota street. Anderson gave chase as far as Silver street, but they had so much the start of him that he could not overtake them, so he unlimbered his cannon and opened fire on them. He shot three times, but owing to the darkness his aim was poor and the fellows escaped.

**WHAT KNIGHT SAID.**

His Testimony Might Implicate an Innocent Man.

BUTTE, June 16.—The case against J. B. Knight and Michael Gill, accused of withholding from the authorities information relative to the murder of Penrose, was set for 7 o'clock this evening at Judge Eddy's court. At that hour Dave M. Evans, the prosecuting witness, was not present. J. B. Knight's attorney moved that the case against the defendants be dismissed without prejudice to them, and offered to prove that Mr. Evans was not a juror. Judge Eddy declined to dismiss the case, but continued it until to-morrow night. Mr. Knight says that he does not desire to testify as to what he has heard as he thinks it would implicate an innocent man.

**ARRESTED IN CENTERVILLE.**

A Well-Known Citizen Charged with Cattle-Stealing.

BUTTE, June 16.—John Handley was arrested today in Centerville charged with the grand larceny of two head of cattle. He was held in bonds to the amount of \$500, which he promptly furnished. It is generally understood that this case is a great mistake. It appears that cattle have been lost and Handley is charged with the larceny of them. There is, however, a possibility of the cattle having strayed onto Handley's place, but if such a thing is the case Mr. Handley appears to know nothing about it whatever and was greatly surprised when placed under arrest. He is well and favorably known in the city.

**Order of United Workmen.**

DETROIT, June 16.—The nineteenth annual meeting of the supreme lodge A. O. U. W. began here to-day. The report of the supreme recorder showed 4,654 lodges, a net increase for the year of 190; a total membership of 251,822; a net increase for the year of 29,557; receipts for the year, \$5,117,385; expenditures \$5,127,830 of which \$4,762,157 was for death losses and the remainder general expenses.

**Maltreated Prisoners.**

LONDON, June 16.—The Irish land purchase bill passed the first reading in the house of lords to-day. In the commons, Harcourt, discussing the Manipur outbreak, attacked the Indian government and urged a more just policy in dealing with the native princes of India. The secretary of war, Stanhope, said the viceroys deserved the confidence of parliament.

**Steadfast Soldiers.**

WASHINGTON, June 16.—Secretary Proctor has prepared a statement showing that desertions from the army are less now than any time since the war closed. Desertions for the month of May were less than half what they were for several years past, and the ratio of decrease is constantly increasing.

**Smokers of the celebrated and original**

"Cuban Blossoms" will in future find every cigar and every box branded "L. Lillie." All others are counterfeit. L. Lillie, 1232 Second avenue, New York.

**A Noble Request.**

HAMILTON, N. Y., June 16.—James B. Colgate gave \$100,000 to-day to the Colgate university without reserve.
